## ABOUT HOOKED ON AARD

HI!

I'm Adel, the crazy creative behind hooked on AARD. I am from sunny South Africa and I have a passion for all things yarn, especially crochet. I hold AARD very dear to my heart, because not only is it a play on my initials, it also closely resembles the Afrikaans word Aarde, which means Earth. It is through AARD and the slow fashion designs I create that I hope to minimise my impact on the environment and create sustainable, ethical crochet designs - so that you can too!
